

Logistics Support (80% to 100%) based in Zug, Switzerland

About Bioeq

Bioeq AG is a young and dynamic Swiss biopharmaceutical joint venture backed by the leading biosimilar developers Polpharma Biologics Group and Formycon AG. We have launched our ranibizumab, the market leading biosimilar to Lucentis®, in the US, UK, EU and other countries. To strengthen our supply chain department and to drive our growth, we are looking for Logistics Support (m/f) to join our team in Zug, Switzerland.

About the role

This is the opportunity to have an in-depth learning experience in pharmaceutical operations, including manufacturing and logistics. In this role you will handle documentation required to ensure the right quality at the right time and in full compliance. This will include logistics documents, changes, deviations, master data records and similar documents, with a focus on logistics. You will interact with internal departments including External Manufacturing, Quality, Regulatory and Finance. You will also be exposed to our external manufacturing network and logistics service providers, which are located globally.

This role is temporary until the end of 2025.

Your main activities will be:

- Create and process logistics documents related to transportation including changes and deviations
- Support the operations team with additional documentation tasks as required
- Organise transportation of Bioeq products with service providers
- Support and be involved in other Supply Chain related projects

About you

You have just completed your studies or your apprenticeship or you are an experienced professional looking for a temporary position. In addition, you are known as a fast learner.

You have the following skills:

- General understanding of pharmaceuticals and GDP (Good Documentation Practice)
- Experience in dealing with external service providers and transport organisation
- Collaborate well cross functional and with external service providers
- Very well organised
- High attention to detail
- Fluent in English

How to connect

If this unique opportunity resonates with your plans and aspirations, feel invited to apply with your CV in English and in .pdf format via email to jobs@bioeq.ch.
