

## Head Global Product Launches based in Zug, Switzerland

### About Bioeq

---

Bioeq AG is a Swiss joint venture between the Polpharma Biologics Group and the Strüngmann family's investment company. We license, develop and commercialize a biosimilar, which is a successor product of Lucentis® (ranibizumab), a successful branded biopharmaceutical. We are a young and dynamic company, supported by an international network of experts.

### About the role

---

You are responsible for ensuring launch readiness along the entire value chain and coordinating all launch-related activities between Commercial, Regulatory, Quality and Supply Chain. Furthermore, you ensure and support product launch execution by our global Partners. You will report to the Managing Director. In this exciting role your main activities will be:

- Develop and align launch plans across all markets in conjunction with regulatory and commercial strategies
- Secure launch readiness along the entire value chain and according to launch plans
- Ensure and support product launch execution by Licensees
- Responsible for the Launch Planning and the launch-readiness on time in each Region/Country according to the launch plan
- Plan, coordinate and monitor launch-related activities across Licensees launch teams, internal functions, Manufacturing and Logistics
- Responsible for compilation of Licensee-derived forecasts and plan product demand in accordance with commercial objectives
- Define entire artwork process including artwork changes with MAHs, Licensees and manufacturing network and internal functions
- Build up process and assure market-conform safety features for all markets
- Challenge and optimize existing internal and external launch-related processes

### About you

---

You have a cooperative, self-motivated and pro-active mindset. You combine excellent planning and execution skills with the ability to work effectively in multidisciplinary teams. Furthermore, you possess the following qualifications:

- University Degree in Life Sciences or Business Administration; additional competences in Supply Chain or related fields are a plus
- Proven track record of 5+ years in international pharmaceutical business
- Experienced in the execution of global product launches
- High level knowledge of biosimilars
- Strong stakeholder management skills
- Strong communication skills
- Fluent in English and in German

### How to connect

---

If this unique opportunity resonates with your plans and aspirations, feel invited to apply with your CV in English and in .pdf format via email to [jobs@bioeq.ch](mailto:jobs@bioeq.ch).
